

## Newsletter Participation Information

The Northern Rocky Mountain Retiree Association publishes a newsletter twice a year, aiming for April and October. We aim to have a variety of stories and news including stories of your days in the Forest Service, Some historical articles about the “good old days” of the Forest Service, current activities that our retirees are involved in, updates from the Museum of Forest Service History, upcoming events of interest, book reviews about books our retirees have authored or on a subject that Forest Service folks might be interested in and sadly, also obituaries for our retirees.

We welcome articles and information from our members. Because of formatting restraints your stories should be in a “word” format and photos should be in a jpg format and not imbedded in your story. This gives our layout person the ability to fit your information into our two-column format. A good length for stories is 1 to 3 pages. This leaves us room for more stories and is a good, readable length. We can always use some photos for filler between stories - jpg format and a caption to go with them please. For obituaries you can email our editor with the person's name and what newspaper the obituary appears in. Because of space constraints we usually need to edit these down a bit

Our newsletter editor is Vicky MacLean. She can be contacted at [agillabs@mcn.net](mailto:agillabs@mcn.net) or 406-459-6731
