Wildfire Crisis Strategy Communication Lead

## Summarizing 2024 Accomplishments

### Prescribed fire

63, 596 acres

### Mechanical treatment

104,245 acres

### Other treatments

19,479 acres

How does this compare to other years?

For the second year in a row, Region 1 has far exceeded previous acres treated. Mechanical and prescribed fire typically were around 30,000 acres.

Thank you for all the hard work you have done to implement the Wildfire Crisis Strategy in Region 1.
